

Scholarships Now Available for Child Care Providers in Broward County

Have you been dreaming about receiving your national CDA or taking college level courses but can't afford the cost of tuition?

The Early Learning Coalition of Broward County may be able to make your wish a reality! The Coalition has more than \$300,000 available for scholarships for eligible child care providers who reside in Broward County.

Administered by the Children's Forum, the scholarships will be available for qualified participants to:

- obtain their national CDA,
- attend college classes, and
- participate in CEU and in-service hours.

The scholarship program will reimburse qualified providers who paid for eligible classes successfully completed between July 1st, 2010 and June 30th, 2011, as well as for the enrollment and successful completion of classes towards a National CDA at qualified schools. Scholarships are limited to available funds.
